18	Crystal White Luxury Lau	Peshawar	+92 332 9017007	crystal_admin	6 staff	37 items	85 ord

SYSTEM ARCHITECTURE & VALIDATION HIGHLIGHTS

- ### 1. Dual-Mode Printing Architecture

Supports silent POS thermal receipts (80mm) and wash tags (75mm) via local print daemon (<http://127.0.0.1:4321>). If unreachable, immediately falls back to native browser window.print() with zero dead clicks.
- ### 2. Strict Multi-Tenant Store Data Scoping

Logging in as any store admin strictly isolates all services, addons, customers, orders, expenses, and ledger entries to that store_ID. Multi-store leakage is completely prevented at the database layer.
- ### 3. Dedicated Staff Member Dashboard

Staff accounts (e.g. sparkle_staff_1) land on a dedicated staff dashboard showing only orders booked by that specific operator, keeping personal performance distinct from store-wide management.
- ### 4. Full POS Workflow & Modal Scrolling

The Make Payment popup on /pos features scrollable modal dialog containers, accommodating itemized billings, discount coupons, multiple payment tenders (Cash, Card, Bank, UPI), and wash tag printing.

Store Logins & Staff Roster (Stores 12 - 15)

Complete credentials and staff account roster for Multan, Lahore, Karachi & Islamabad

Hamza Shah	crystal_staff_6	123456	crystal_st6@iclean.pk	POS Operator / Orders

RECOMMENDED END-TO-END VERIFICATION WORKFLOW

- [1] POS Order Creation & Payment

Log in as any store owner (e.g. sparkle_admin), open POS (/pos), select services & addons, click 'Make Payment', verify the newly scrollable modal dialog, and complete checkout.
- [2] Dual-Mode Printing Verification

On invoice completion, check thermal receipt print (80mm) and garment wash tag (75mm). Verify it connects to localhost:4321 silent printer or pops native browser print preview.
- [3] Store Data Scoping Test

Log in as velvet_admin (Lahore), view orders and customers, then log in as metro_admin (Karachi). Confirm zero cross-store data leakage in tables or autocomplete dropdowns.
- [4] Staff Scoped Dashboard Test

Log in as a staff member (e.g. royal_staff_1). Confirm the dedicated Staff Dashboard appears, displaying only orders booked by that specific operator rather than global store stats.
- [5] Financial & P&L Reports Audit

Navigate to Reports -> Daily Report, Order Report, and Profit & Loss. Verify the 3-month seeded expenses and completed order revenues reflect accurately in the charts.
